## DETAILED ACTION

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 9 and 12 are rejected under 35 U.S.C. 102(b) as being anticipated by Sato et al.

Sato et al discloses an optical scanning unit; the optical scanning unit includes a rotary deflector having a mass member (17) detachably fixed to a non-rotary section (18) of a driving motor for rotating a polygon mirror (1). See Fig. 1.

In re claim 12 the disclosed optical scanning unit is provided for an image forming apparatus (column 1, lines 11-15).

### ***Allowable Subject Matter***

Claims 2-4 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The following is a statement of reasons for the indication of allowable subject matter: the a non-rotary section (18) of the driving motor disclosed in Sato et al is not a shaft located at the center of rotation of the driving motor (see claim 2, lines 1-2). Because part of the a non-rotary section (18) is used for the housing (6), there would be unobvious to modify Sato et al so as to meet the claimed invention.

***Response to Arguments***

Applicant's arguments with respect to claims 1, 9 and 12 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
